Product description:

- DPF cleaning machine. Hot water cleaning device
- Uses the phenomenon of turbulent water flow hydrodynamics, and compressed air pulse strength from the compressor
- Works perfectly with DPF Active Matic fluid that reduces surface water tension thanks to which the detergent particles more effectively remove dirt from the surface being cleaned
- Cleanses particulate filters from soot, ashes and oils

Intended use:

- DPF / FAP / SCR / Catalysts
- cars, vans, trucks, buses, tractors, forklifts

Functions :

- cleaning
- testing
- drying
- printing reports

- **water tank:** 370 l
- **panel control:** color touch screen
- **I back pressure test before and after cleaning:** air test and water test (mbar)
- **II air flow test 0 - 100%** (during drying)
- **printing cleaning efficiency reports:**
online report generator (partner zone)
internal panel printer
- **drying system:**
1 program, around 80°C
2 program, around 130°C
- **cooperating compressor parameters:** up to 10 bar (not included)
- **dirty water filtration system:** internal, integrated with the machine (2 filter tanks)
- **filter installation - passenger car:** pneumatic quick coupler
- **filter installation - truck:** connection adapter EURO 6
- **type of material used:** stainless steel
- **external dimensions of the cabin (height x width x depth):** 215 x 250 x 100 cm

The DPF Premium set includes:

- DPF Premium cleaning machine
- set of connection adapters for DPF and catalysts (cars, vans and trucks)
- endoscope - USB mini inspection camera
- set of cartridges for the dirty water filtration system
- cleaning agent (10 liters)
- specialist pen for steel filter housing
- individual account in the partner zone (1 year free)
- training

Set price and financial settlement:

- **Net price:** EUR 27.000
- **I payment in the amount of 10% payable up to 7 days from the day of signing the contract**
- **II payment in the amount of 90% payable at the latest before picking up the goods**
